e-Overitve

Software Application

Mateja Izlakar, MSc
Project Manager

Supreme Court
Republic of Slovenia

Three basic parts of application

- register of requests for public documents authentication and electronic recording of issued certificates

- register of:
  - signatures and capacities in which the persons signing the documents have acted
  - seals or stamps of public documents publishers

- web user interface for checking the existence of issued certificates

e-Overitve as a part of jurisdiction IS

Certificates issuing process
